The German Detective drew a fair audience at Rempel's Opera House, last Saturday evening, and the performance gave general satisfaction. The printers of the Sentinel are indebted to Geo. G. DON'T EXPERIMENT.

Don't permit any dealer to impose upon you with some cheap imitation of Dr. King's new discovery for Consumption, colds and coughs, but be sure you get the genuine. Because he can make more profit, he may tell you he has something just as good or just the same. Don't be deceived, but insist upon getting Dr. King's new Discovery for Consumption, which is guaranteed to give relief in all throat, lung and chest affections. Trial bottles free at F. SEMI-CENTENNIAL.

Jeff Cline Passes the Fiftieth Mile Post.

And is Surprised By the Congratulation of Friends.

Last Tuesday, Jeff Cline, the popular liver man of Logan, reached the fiftieth anniversary of his birth. His 240 horses were at the disposal of his friends, and the flying sleighs on the icy boulevards, defied in speed, Marshal John Stedem, Alderman Gould, and the ordinances of the village against fast driving.

In the evening, a company of about fifty gathered at his home, a regular organized surprise.—Cap. Dave Miller handled the unsuspecting victim, and kept him from home until the company had assembled.

To say that Jeff was surprised to meet the company, is commonplace. He was paralyzed. Bob Price, in a very pretty speech in behalf of his many friends, presented him with a handsome gold watch chain. Jim Smith, in behalf of the Railroad Co., presented him a lantern, with which his footsteps and his carriages might be lighted on the hill of life. Wad Gage, in behalf of the livermen of the city, presented him with a rare musical instrument, with which to console himself when the other boys get all the passengers and he gets none.

Jeff responded to the speeches in excellent style, and returned thanks for the honors paid and the gifts received.

The evening was spent very pleasantly. Mrs. and the Misses Cline entertained the company with music and song, and not until after midnight and Jeff was started on his new year, did the happy company disperse.

With Mr. Cline's many friends, the SKIRMISH joins in congratulation, and tenders the wish that all the mile posts may be as happy as the one just passed.

Council Meeting.

There was a continuation of the Council meeting from Tuesday to Friday night of last week. All the city officers were present except the clerk, who was detained on account of sickness in his family. The members present were Rochester, Keyes, Bradock, Kreig, Waner, Schlegel and Gould.

The finance committee reported favorably to the following bills, and on motion they were allowed:

Mike McBride \$8 12
John Saver 11 26
John Roby 25 60
Gas Co 144 37
D. McCaulf 8 75
Mitt Myers 2 50

Mr. Gould presented a claim from the Logan Gas Co., amounting to \$18, for changing lamp posts, pipes, etc., the payment of which was opposed by several of the members, and after much discussion it was not allowed. The end is not yet, as the Gas Company insist that the amount is justly owing, and they propose to have it. The bill will undoubtedly come up before some other tribunal.

Robt. W. Price appeared as attorney for a petition from George and Jacob Fox, asking that the Maxville road be so graded as to prevent the water from flooding their grounds. Mr. Price presented the situation to the Council, explained their duty as the underdogs, and asked for immediate relief, and if denied, litigation for damage would follow. It was shown that Carpenter, who lately purchased property in the neighborhood, had obstructed the natural water course of a run, which caused the trouble to his neighbors. After some discussion, the Council, on motion of Mr. Keyes, ordered the Street Commissioner to remove the obstructions to the natural water course, and to employ such force as would be necessary to that end.

Mr. Keyes made a statement that he had been reliably informed that the Gas Co. were practicing a great fraud upon the corporation in regard to the street lamps. He did not give his authority, but he had been informed that a "governor" was inserted in all the street lamps, thereby preventing the power of light stipulated by the contract with the Gas Co., and he demanded that an investigation should be immediately made, and if found that the corporation was being defrauded, then the contract should be annulled. This statement and the remarks of Mr. Keyes created a sensation. We doubt if any member believed the story, but to satisfy all, on motion, the committee on street lights was ordered to make an investigation, and report at next meeting.

No other business of importance was transacted, and the meeting adjourned.

Oil being spilt on a floor and lighting, then setting fire to some clothing, might have caused the destruction of one of the Company's houses, but the timely arrival of the post master prevented this loss.

STARR ITEMS.

Mr. Wm. Brandt, who is teaching at Gore Run, gave his scholars a spelling school on last Thursday evening.

Protracted meeting services are in progress at Morris chapel.

Sometime ago, Mr. A. McLain of Duck Run, and Dr. Gustin, of Cadiz, concluded to exchange horses. McLain giving \$22.50 to "boot" each appeared satisfied until some days after, when the son-in-law of McLain was at once notified of the fact and asked to exchange back, but refused. A warrant was at once issued from the Court of Esq. Henderson, for the arrest of McLain on a charge of getting property under false pretense. Accordingly the parties appeared before Esq. Henderson on last Thursday, and both parties agreed to arbitrate. Three men were accordingly selected, who soon arrived at a decision. The decision was as follows: The Dr. should have his horse back, by paying McLain \$12.

Or the original trade should stand but McLain should pay the Dr. \$15. The Doctor accepted the first proposition, which seemed satisfactory to both parties.

John Perkins, the blacksmith at Union Furnace, is dangerously ill, having neuralgia of the brain.

John Tomlinson and wife, of Harmony Grove, were the guests of F. M. Sadow and family of Simcoe Run, on last Friday.

An Obstinate Juro.

Among old stories current at the court-house, says the New York Tribune, is the following:

The obstinacy of a juror, as is well known, sometimes defeats the ends of justice, for a time at least, and causes great annoyance to the eleven who are locked up with him. A case in which something of the kind occurred, and bearing the name of an entirely different nature, causing long delay in the jury-box, occurred not long ago. A jury retired after listening to the evidence and hearing the law clearly expounded in a simple action on contract. The twelfth man was a little, young, red-faced German, whose hair stood stiffly up and helped to give his solid face a rebellious look. He wore a long waist coat, which he was constantly compelled to pull down over his stomach, which was a bad sign, and which was a bad sign, and which was a bad sign.
